It will show you what the goal level is and how you can complete it as well. If the purpose or location of the current levels are different from what you see in the video below, feel free to let us know in the comments section below and we'll update the video. Bubble Witch 3 Level 117 Tips To complete this level we have compiled a small list of general tips that should help you along the way. While some tips are more useful than others, it's always good to be reminded of basics. #1 - Not the time: The most important advice is not to take your time because there is no time limit. Use this and always aim your bubble for the best match. #2 - Swap Bubbles: Always make sure you're looking at the upcoming bubble, not just the one given. When the current bubble doesn't match the bubble on the playing field it doesn't just shoot it randomly. Swap between two different bubbles by clicking on the shooter or clicking on the spacebar, depending on which one is most useful to you at the moment. #3 - Target High: Look for bubbles you can match at the top of the playing field. The goal of the bubble is to hit a match that has a lot of bubbles attached to it, making it you will beat the level for some time. Aiming high you not only make your life easier, but you're also maximizing points. #4 - Use the sighting line: Pretty often, there are simply no viable shots if you aim your bubble right across. This is when you need to use the walls on the sides of the playing field. Before shooting the bubble, make sure you use the sighting line to aim the bubble. To do this, you just tap and hold the bubble on mobile devices. On desktop computers you aim with your mouse. When you follow the aiming line, the chances that you miss your target will decrease dramatically. #5 - Notice the goal: Bubble Witch 3 Saga has four different types of levels, all of which require you to do different things. The strategy you use depends on the goal you are being asked to accomplish. Make sure you know what you have to do before you act on it in the first place.
